OLD AGE.

The Means of Prolonging Life After Biddle Age. (From the Wilnington Del., "News.") An eminent London physician, John Gardner, M. D., whose specialty is diseases of the aged, has written a work on his fa-vorite topic, and the result of his research is, that the only sure and abiding strength which old age receives is a medical treat ment, with pure whisky. Quoting from his work, the doctor says: "Elderly persons who in winter suffer from cold feet, and find artificial heat, applied externally fails to afford relief, may with undoubted propriety and advantage take whisky and hot water on going to bed. If a headache or foul tongue follows, the inference is, the spirit was impure, probably conache or foul tongue follows, the inference is, the spirit was impure, probably containing fusel oil. A very slight trace of this nuxious ingredient, in spirits, will, in some constitutions, produce headache—as accurate a test of inpurity as chemistry can employ. On the subject of itimulants and their medicinal use when pure, Dr. Gardner further says: "The advocates of total abstinence equally fail to produce evidence in support of their opinion, that all stimulants are inimical to health and longevity. Science, common sense, Holy Scriptures and all experience, testify to the benefits to be derived. "The Every Saturday" of Baltimore, Md., publishes an interview, with the few remaining veterans, who were the defenders of the city in 1812, and who, though they have advanced far into the vale of years, enjoy good health, for which, each in turn, gave a potent reason. This little band of heroes, comprised of Mr. John C. Morford, aged 59 years, George Boss, 59; Samuel Jennings, 89; John Peddecord, 90; Nathaniel Watts 90, were visited at their separate homes, and for the many lile and infirmities to which age is subjected, each had used Duffy's pure mait whiskey medicinally, and each acknowledged its superior merits and the benefits they had derived from its use. From these evidences the reporter moralises thus: "that the proof was positive that they had prolonged their lives by proper attention to nature's laws, and that the claim of the prohibitionlist that stimulants are not conductive to longevity, had fallen to the ground."

I enclose you a letter which you are to read and deliver to the man for whom it is intended. I do not care whether you deliver in person or through the medium of another. If he consents to an honorable settlement then the letter will never see the light of day, but if he does not act then it will be published to the world, and from the time he opens up the ball in a legal way, we will continue to wage the battle with him. His wealth cannot save him if this fight is begun. Let no one know of the existence of this lotter until after 5 o'clock of the day you deliver it. For seven years I suffered with a cancer on my tace. All the simple remedles were applied to alteviate the pain, but the place continued to grow, finally extending into my nose, from which came a yellowish discharge very offensive in character. It was also indiamed, and annoyed me a great deal. Abort eight mouths ago I was in Atlanta, at the house of shrift's Specific that I determined to consult, and began its use. The influence of the medicine at first was to somewhat aggravate the sore; but soon the inflammation was allayed, and began to improve after the first few bottles. My general health has greatly improved. I am stronger, and able to do any kind of work, The cancer on my face began to decrease and the ulcer to heal, until there is not a vostige of it left-only a little sear marks the piace where I had been. Here, Mrs. Joicus A. McDiovalle.

Mrs. Joicus A. McDiovall.

I have had a cancer ou my face for some years, To W. O. McDowell, Esq., New York, I received your letter to me, dated Scranton, Pa., April II, 1886, at the same time, and by the same agency that I received your foregoing letter of instructions to Mr. McDowell.

The animus and purpose of your letter the animus and purpose of your letter to me cannot be fully understood without knowing the contents of that one. I was peremptorily notified at the same time that I must answer your letter by 5 o'clock to-day, and I was graciously given until that hour to respond.

I have fad a cancer on my lace for some the nose to skeeding from one cheek bone across the nose to he other. It has given me a great deal of pain, at it mes burning and itching to such an extent that it was almost unbearable. I commenced using swilt's Specific in May, 1835, and have used eight coulder. It has given the greatest relief by removing the inflammation and restoring my general residing. TWO SUILIECTS TO BE CONSIDERED, Knoxviite, Iowa, Sept. 8, 1885.

For many vears I was a sufferer with causer of the nose, and having been cured by the use of 8, 8, 1 feel constraint dby a sense of duty to suffering humanity to make this statement of my case.

With the fourteents bettied has a suffering with the fourteents bettied has a suffering the following the suffering has been no appearance of a sore of any kind on my nose or face, unit for suffering the following has been no appearance of a sore of any kind on my nose or face, neither is my nose at all tender to the touch. I have taken about two dosen bottles S. S. 4, and am soundly cured, and I know that S. S. 8, effected the cure after every known remedy was tried and had failed.

Fort Gaines, Ga., May 1, 1255. Your letter to me embrages two subjects one relating to me embragase wo sunjects, one relating to me personally and the other to the relation of the Knights of Labor to the railroad company of which I am President, and in some degree the representative of its public and private duties. I shall refer to the subject very bright. The circumstances above civery briefly. The circumstances above given, under which your letter was delivered, as well as its tenor and spirit, place the pur-pose in writing it beyond any fair doubt. It would seem to be an official declaration Fort Gaines, Use, May 1, 1256.

I had heard of the wonderful cures of Swift's Specific, and resolved to try It. I commenced taking it in April, 1844. My general health was much improved, yet the cancer which was in my breast continued to grow slowly but surely. The bunch grew and became quite heavy. I felt that I must either have it cut or die. But it commenced discharging quantities of almost black, thick blood. It continued healing sround the edges until February, when it was entirely healed up and well.

In answer to these personal threats, I beg to say that I am as yet a full American citizen. I am past 40 years of age, and was born at Roxbury, Delaware county, in this State. I began life in a lowly way, and by industry, temperance and attention to my own business have been successful, perhaps beyond the measure of my deserts. If, as you say, I am now to be destroyed by the Knights of Labor unless I sink my manhood, so be it. Fortunately I have retained my early habits of industry. My friends, neighbors and business associates, know me well, and I am quite content to leave my personal record in their hands. If any of them have aught to complain of, I will be only too glad to submit to any arbitration. If such parties or any of them wish to appoint the Knights of Labor or you as their attorney, such appointment is quite agreeable to me, but until such an election is made it will naturally occur to you that any interference on your part in my personal affairs is, to say the least, quite gratuitous.

It affords me pleasure to assure you that after using Dr. C. McLane's Celebrated Liver Fills for more than twenty years in my family. It would seem a little strange that during all these years the difficulty with the Knights of Labor should be my first. FREDERICK TURKER, Secretary.

READY TO ARBITRATE,

Ever since then Mr. Hoxie has stood ready to receive any and all persons in the actual employ of the company as a com-mittee or otherwise, and confer upon or arbitrate any matter of difference or com-plaint, either between the company and themselves, or between the company and

In the meantime this company has of necessity gone on to extend employment to such of those persons who recently and without even alleged provocation left its service as saw fit to return. These returning employes have been very many, and in this way its rolls are already nearly, if not quite, as full as its shops and equipment, crippled by acts of violence attendant upon the recent action of your order, can employ. Mr. Hoxie advises me that every such person applying to be received back has been employed, unless believed to have taken part in recent acts believed to have taken part in recent acts

believed to have taken part in recent acts of violence.

This company still stands ready to make good in the fullest sense its agreement as expressly set forth. In the face of all this you notify me that unless by 5 o'clock I personally consent to something, precisely what I do not see, then personal consequences of a sort vaguely expressed but not hard to understand will at the hands of your order be visited upon me.

A PRESONAL FIGHT. A PERSONAL FIGHT.

Let me again remind you that it is an American citizen whom you and your or-der thus propose to destroy. The contest is not between your order and me, but beis not between your order and me, but between your order and the laws of the land. Your order has already defied these laws in preventing by violence this company from operating its road. You heid then that this company should not operate its road under conditions prescribed by law, but only under conditions prescribed by you. You now declare in effect, that I hold my individual property and rights, not as other men hold theirs, but only at the peril of your letting loose irrevocably

not as other men hold theirs, but only at the peril of your letting loose irrevocably after 5 o'clock your order upon me.

If this is true of this company and of me, it is true of all other men and companies. If so, you and your secret order are the law, and an American citizen is such only in name. Already for weeks your order in your attack upon this company has not hesitated to disable it by violence from rendering its duty to the public and from giving work and paying violence from rendering its duty to the public and from giving work and paying wages to men, at least three times your own number, who, working as they were by your side, were at least deserving of your sympathy.

Having pushed this violence beyond even the great forbearance of the public and found in this direction cause to hesitate you want the public and proposed.
